The thirteenth edition of the Workshop on "Tourism: Economics and Management. Due to the Covid-19 pandemic, travel uncertainties and the safety of face-to-face events, this 13th edition of the Workshop will be held online from November 24th to 26, 2021.

The Workshop's purpose is to build a network between young scholars and experts contributing to the research agenda from tourism and transport economics points of view. Most welcome are contributions from scholars in social sciences – particularly Economics and Management, and practitioners concerned with spatial modelling, tourism economic behavior (transportation and travelling in tourism) and perspectives into tools and frameworks for tourism.
